

ENVIRONMENTAL POLICY STATEMENT

At CE Power Solutions Limited, we recognize our responsibility to minimize the environmental impact of our operations while delivering high-quality energy services and solutions, including Asset-Based Business Power Outsourcing, Independent Power Plant (IPP) Services, Rental Services, and Power Management Services to industrial and commercial clients.

We are committed to protecting the environment, preventing pollution, and promoting sustainability in all aspects of our business.

In line with the requirements of ISO 14001:2015, CE Power Solutions Limited shall:

- Comply with all applicable environmental legislation, regulations, and other obligations related to our activities, products, and services.
- Identify and manage significant environmental aspects and impacts, including energy use, fuel consumption, emissions, and waste generation.
- Prevent pollution and minimize environmental risks through efficient energy management, waste reduction, and responsible use of natural resources.
- Promote sustainable practices by integrating renewable and hybrid energy solutions into our service offerings.
- Continually improve the performance of our Environmental Management System through monitoring, audits, and management reviews.
- Engage and train employees, contractors, and stakeholders to build environmental awareness, responsibility, and accountability at all levels.
- Collaborate with clients, partners, and regulators to achieve sustainable energy solutions and support Nigeria's transition to cleaner and more efficient power.

This policy provides the framework for setting and reviewing our environmental objectives and targets. It is communicated to all employees and stakeholders, made available to interested parties, and reviewed periodically to ensure ongoing suitability, adequacy, and effectiveness.
